"New York is a glamorous city, constituted mostly of nobodies," says LeDuff in the book's introduction, and it is these nobodies that he plucks from obscurity and brings to life in these nervy, punchy vignettes. Partially drawn from his former column in the *New York Times*, the pieces collected in *WORK AND OTHER SINS* provide compelling and contemplative portraits of the laborers, dreamers, hustlers and immigrants from the city's uncelebrated ranks of working stiffs.

The heart is the "wellspring of life" (Proverbs 4:23 NIV), and dishonesty in the heart will affect the whole person. Deception of others is closely related to self-deception. And there are obviously sins that we are shocked and appalled by, and usually see these sins as worse than others. But the reality is, all sin separates us from Christ. There aren't degrees of separation -- you are either reconciled to God or you are a stranger to him (see Colossians 1:21-22), there is no in-between.

□ Certain sins, moreover, constitute by their very object a direct assault on one's neighbor. Such sins in particular are known as social sins. Social sin is every sin committed against the justice due in relations between individuals, between the individual and the community, and also between the community and the individual□ (#118).

Surely this isn't the case. In his book, Nee points out God's provision for us concerning both the sins we commit outwardly and our inward nature of sin. God's provision for the sins we commit. The problem of our sins can only be dealt with by the precious blood of Christ.

Pulitzer Prize-winning journalist Charlie LeDuff searches the ruins of Detroit for clues to his family's troubled past. Having led us on the way up, Detroit now seems to be leading us on the way down. Once the richest city in America, Detroit is now the nation's poorest. Once the vanguard of America's machine age—mass-production, blue-collar jobs, and automobiles—Detroit is now America's capital for unemployment, illiteracy, dropouts, and foreclosures. With the steel-eyed reportage that has become his trademark, and the righteous indignation only a native son possesses, LeDuff sets out to uncover what destroyed his city. He beats on the doors of union bosses and homeless squatters, powerful businessmen and struggling homeowners and the ordinary people holding the city together by sheer determination. *Detroit: An American Autopsy* is an unbelievable story of a hard town in a

rough time filled with some of the strangest and strongest people our country has to offer.

A daring, firsthand, and utterly-unscripted account of crisis in America, from Ferguson to Flint to Cliven Bundy's ranch to Donald Trump's unstoppable campaign for President--at every turn, Pulitzer-prize winner and bestselling author of *Detroit: An American Autopsy*, Charlie LeDuff was there In the Fall of 2013, long before any sane person had seriously considered the possibility of a Trump presidency, Charlie LeDuff sat in the office of then-Fox News CEO Roger Ailes, and made a simple but prophetic claim: The whole country is bankrupt and on high boil. It's a shitshow out there. No one in the bubbles of Washington, DC., New York, or Los Angeles was talking about it--least of all the media. LeDuff wanted to go to

And so LeDuff set out to record a TV series called, "The Americans," and, along the way, ended up bearing witness to the ever-quickenning unraveling of The American Dream. For three years, LeDuff travelled the width and breadth of the country with his team of production irregulars, ending up on the Mexican border crossing the Rio Grande on a yellow rubber kayak alongside undocumented immigrants; in the middle of Ferguson as the city burned; and watching the children of Flint get sick from undrinkable water. Racial, political, social, and economic tensions were escalating by the day. The inexorable effects of technological change and globalization were being felt more and more acutely, at the same

The American people felt defeated and abandoned by their politicians, and those politicians seemed incapable of rising to the occasion. The old way of life was slipping away, replaced only by social media, part-time work, and opioid addiction. Sh*tshow! is that true, tragic, and distinctively American story, told from the parts of the country hurting the most. A soul-baring, irreverent, and iconoclastic writer, LeDuff speaks the language of everyday Americans, and is unafraid of getting his hands dirty. He scrambles the tired-old political, social, and racial categories, taking no sides--or prisoners. Old-school, gonzo-style reporting, this is both a necessary confrontation with the darkest parts of the American psyche and a desperately-needed reminder of the country's best instincts.

Mina's life is going according to plan; she's acing AP Calc and is perfectly content with her nonexistent social life. Though only a high school junior, Mina knows time is an investment, and she's putting all her capital into academics. Oliver, a child abuse survivor who grew up in the foster care system, is ready to burn down his old life and start from scratch-complete with a new name and emancipation papers-in L.A. When the two are thrown together through circumstance and develop an unexpected connection, they

discover how hard it is to keep the past in the past. *Love and Other Sins* is an emotional coming-of-age YA drama about family, love, violence, and the residue of abuse set against the backdrop of contemporary Los Angeles. When Mina meets Oliver, you'll remember your own first love and just how fast it swept you under. What were the bonds that bound us? Was it purely physical attraction? Circumstance? Or perhaps it was a mutual gravitation toward inevitable pain. "There was something about her-her eyes. Well, not so much her eyes, physically, but more like what they said about her: she had this look-a kind of restless intensity." "It was intimate . . . a strange and beautiful feeling. We were breathing life into each other." *Love and Other Sins* is a moving story about what it means to be young and vulnerable in today's society. This young adult romance will make you laugh and cry and give you hope for

Wilkerson chronicles one of the great untold stories of American
history: the decades-long migration of black citizens who fled the

From 1915 to 1970, this exodus of almost six million people
changed the face of America. Wilkerson compares this epic
migration to the migrations of other peoples in history. She

altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and

“Conventional wisdom,” says Roger Housden, “tells us that nobody goes to heaven for having a good time.” *Seven Sins for a Life Worth Living*, then, is a refreshing, liberating, and decidedly welcome dose of unconventional wisdom that awakens us to the simple delights and transformative joys of the world around us. With elegance, gentle humor, and remarkable openness, Housden takes us along as he recalls his personal journey toward an appreciation of what he calls the Seven Pleasures: The Pleasure of All Five Senses, The Pleasure of Being Foolish, The Pleasure of Not Knowing, The Pleasure of Not Being Perfect, The Pleasure of Doing Nothing Useful, The Pleasure of Being Ordinary, and The Pleasure of Coming Home. Housden writes, for instance, of submitting to the ultimate folly of falling in love, of celebrating our

imperfections, of coming to understand the virtues of the Slow Food movement while enjoying an all-afternoon lunch in a small French village, and of discovering in a Saharan cave that, however extraordinary our surroundings, we are human, a glorious nothing much to speak of—and learning to be at peace with the notion. Such pleasures may be suspect in today's achievement-driven, tightly scheduled, relentlessly self-improving, conspicuously consumptive culture, but surely the greater sin lies in letting them slip away moment by precious moment. "The purpose of this book," says Housden, "is to inspire you to lighten up and fall in love with the world and all that is in it." Reading it is a pleasure indeed. "When you die, God and the angels will hold you accountable for all the pleasures you were allowed in life that you denied yourself." Roger Housden, author of the bestselling Ten Poems series, presents a

joyously affirmative, warmly personal, and spiritually illuminating meditation on the virtues of opening ourselves up to pleasures like being foolish, not being perfect, and doing nothing useful, the pleasure of not knowing, and even (would you believe it?) the pleasure of being ordinary.
